BikingBillboards™

bicycle billboard advertising

A smart and personable alternative to ho-hum advertising.

Rider/Brand Ambassador

Company Description

Biking Billboards offers a smart and personable alternative to traditional advertising to its clients. Utilizing bikes trailing high quality billboard advertising and informed and personable Brand Ambassadors, Biking Billboards takes clients' messages "on the road". Using targeted, high-visibility routes, and capitalizing on local events where people congregate, Biking Billboards ensures optimal exposure of its clients' messages to their potential customers. On the route, Brand Ambassadors directly engage with people-distributing samples, flyers, coupons and communicating brand messages.

Company Mission

- To become the go-to advertising channel for any business, product or service, and the #1 engagement advertising company in America. The best companies in the world will use Biking Billboards to get their messages to their target audiences. Biking Billboards will deliver back to them valuable information about what people think, feel and say in response to their products and services.
- To advertise and communicate great products and services in a fun, friendly, environmentally conscious and memorable way
- To make every interaction with clients, target audience members, and partners among the BEST interactions of their day!

Job Description

Biking Billboards is all about engagement advertising, where our Brand Ambassadors are the front line in delivering value to our clients. Brand Ambassadors must be friendly, outgoing, creative, and engaging people who feel comfortable talking to many people in a public setting and evangelizing for our clients.

Our clients range from real estate to insurance, food, retail, event promotion, and more to come. Your job as Brand Ambassador is to be excited and animated about the client so people who see you associate your smile and the positive interaction they have with you with the client.

You will hand out flyers and/or swag (depending on the client). Part of your role is to screen and filter the audience to ensure we target their ideal customers: if you're doing a campaign for a shampoo company, don't give the free coupon to the bald guy!
